Dual Enrollment Opportunities

Dual Enrollment gives high school students the opportunity to take approved courses at **accredited institutions** including institutions of higher education (IHE), community colleges, NCVPS and Non-WCPSS secondary schools while completing high school graduation requirements. Courses taken must provide opportunities not currently available to the student at his or her high school. This includes courses of an advanced and/or expanded nature. High school graduation credit and grades will be awarded by the base school when the official transcript is received at the base school. Quality points will be calculated as defined in the Wake County Public School System High School Program Planning Guide. The student's official transcript will include this course's grade, and it will be used in calculating GPA, class rank, and credits toward graduation.
